ACE BG ↗

www.advantecnia.com
Heriberto Sotos, CEO
info@advantecnia.com
(+34) 916 324 700

Advantecnia, a brand of ACE Business Group (ACE BG), is a technology and engineering company specialized in digital hospital solutions and critical healthcare infrastructures.

The company develops and deploys SmartRoom, an integrated digital hospital room ecosystem that connects patients, healthcare staff, and hospital systems through advanced communication, automation, monitoring, and artificial intelligence technologies.

Within the SmartRoom ecosystem, Advantecnia presents NurlA, an AI Hospital Virtual Assistant designed to improve patient experience, support healthcare staff, and optimize hospital operations through intelligent interaction and system integration.

Support the client in the entire process of equipment and infrastructure of hospitals, social-health centers, schools and private companies, among others

Products & Services

SmartRoom Ecosystem

SmartRoom integrates multiple hospital technologies into a single digital environment, including:

- IP Nurse Call and Clinical Communication Systems.
- Smart Patient Room (Patient iPad & Digital Services).
- Automation, Control and Security Systems.
- RTLS – Real Time Location Systems (assets and people).
- Safety, Alarm and Fall Detection Systems.
- Real-Time Environmental and Patient Monitoring.
- AI Hospital Virtual Assistant (NurlA).

International Experience

- Presence in 20+ countries.
- 400+ hospitals.
- 40,000+ hospital beds equipped with Advantecnia solutions.

(+34) 636 743 341

APD solutions provide the most efficient and comprehensive integrated management platform on the market, delivering end-to-end traceability and control of medication and hospital supply inventories, anytime and anywhere, from receipt in the central warehouse to the moment each item is administered and fully documented at the patient's bedside.

Closed Loop Management System for medication and consumables

Products & Services

APD solutions ensure the full traceability of the medicaments and medical devices from the Central Warehouse to the patient's bedside or the operation theatre, boosting patient's safety while reducing the associated hospital consumption bill on the range of 25% to 30%

Established in 1973 by one of the pioneers in the sector in Spain, Benjamin Herranz, HERSILL accumulates a long experience as a manufacturer of medical equipment: Anaesthesia, Medical Ventilation, Oxygen Therapy, Medical Suction, Homecare, Emergency and Ambulance Equipment.

Our desire towards technological innovation, continuous improvement, client service, and our tireless work of many years have allowed us to strongly position ourselves in the competitive and demanding medical equipment world market.

Today HERSILL distributes its products in more than 100 countries around the world. We try to win the market's trust all these years, as well as maintain it in a day-to-day basis, by our marked orientation towards the client and the willingness of a flexible and constructive collaboration with them.

Trademarks:

MASENZ's values are at the heart of every product we create. They guide our actions, our decisions, and our commitment to our customers, our partners, and the planet. These values reflect our determination to offer products that not only meet but exceed our consumers' expectations.

Every dietary supplement we manufacture is designed with the finest ingredients, carefully selected to ensure purity and effectiveness. We have GMP certificate to guarantee the reliability and safety of our products for every customer. Our commitment to quality is reflected in every step of our production process, from research to delivery.

Your health, our world

Products & Services

Masenz is a Barcelona-based pharmaceutical and food supplement manufacturer and provider with GMP and ISO 2000 certifications. We produce premium products with exclusive formulas under our five brands or private label. We manufacture in liquid and in solid form: tablets, capsules (vegetal and animal), powder sachets, sticks (10ml) and oral solutions (from 10ml to 500ml). We have more than 100 references, we are registered in 20 countries and have presence in 35. Our five brands are Pactol, Masvitam, Masnutra, Miracle and DSN, and each one of them is designed for a specific need or group of needs. We also provide different raw materials (pellets, API, premix, and excipients) and packaging (foil, injections, closures, amber mold, vials, clear mold, and more). Since 2010. Your health, our world.

ORDISI, S.A., is a family company founded in 1959 and dedicated to the manufacture of electromedical devices. We specialize in two product lines: ASPIRATION and LIGHTING. We offer the most complete range of surgical suction pumps on the market. Our aspirators are characterized by low maintenance and mechanical robustness. In lighting, we specialize in examination and procedure LED lamps, designed using the latest generation LEDs that provide greater colour rendering and reduced heat emission. The experience acquired during more than 65 years has made it possible for our devices to be of the highest quality.

Quinton Biotech Labs, founded in 1897, is a Spanish company that develops food supplements, medical devices, and cosmetics made from seawater. Our product offer includes Ocular, Nasal, and Dermo Sprays, Drinkable Vials, Probiotics, and Sport supplements. The core of our business are seawater ampoules for consumption. We offer Hypertonic and Isotonic solutions, harnessing seawater's natural benefits for therapeutic and nutritional benefits. Our production facility ensures high-quality seawater, meeting international standards for safety and efficacy. Committed to wellness and sustainability, Quinton is a leader in marine-based therapies, enhancing health through seawater's properties.

Quinton Biotech Labs - For a conscious health

Products & Services

Product lines:

- Quinton Medical: Seawater-based healthcare products and food supplements
- Quinton Sport: Sports supplements made from 100% organic and natural ingredients.
- Eau de Quinton: Seawater products designed to improve personal health and well-being.

Our products include seawater ampoules, eye sprays, nasal sprays, dermatological sprays.

We offer a Private Label line: manufacturing services for other brands interested in creating their own seawater-based products.
