BDR is a manufacturer company founded in 2012 and based in Zaragoza (Spain). It is focused in the development, production and sale of CE-IVD products for human diagnosis, and specialized in the areas of HLA, hematology and rare disease

Innovative and Reliable IVD Solutions

Products & Services

BDR has three product lines, each based on a specific technology: Genvinset® (qPCR), Adellgene® (fragment analysis) and NGS on!® (next generation sequencing). Additionally, it has its own bioinformatics department which has developed software tools to help with the results interpretation.

Trademarks:

Genvinset®, **Adellgene®**, **NGS on!®**

CHEMELEX, S.A. develop and produce IVD reagents since 1992. The main premise of our company has always been the productions of high-quality reagents and to offer the best service to the customer. CHEMELEX, S.A. is ISO 13485 certified, and most of our products are CE marked. Our reagents are introduced in more than 60 countries.

Products & Services

BIOCHEMISTRY KITS: Albumin BCG, Bilirubin, Creatinine, Glucose, Cholesterol, Triglycerides, Uric acid, Amylase, Acid and Alkaline Phosphatase, GOT/AST, GPT/ALT, LDH.

CONTROL SERUMS.

SEROLOGY: ASO, CRP, RF, RPR.

FEBRILE ANTIGENS: Salmonella, Brucella, Proteus.

TURBIDIMETRY: Antitrombin, C3, C4, IgA, IgG, IgM, Transferrin.

TURBIDIMETRIC LATEX: ASO, RF, CRP, Ferritin, IgE.

A leading European manufacturer of culture media.

Founded in 1960 we are one of the main European manufacturers of dehydrated culture media for microbiology and molecular biology, which positions us today as a leading international privately held company.

From our factory in Madrid, Spain we export to more than 130 countries all over the world, directly and through authorized distributors. Our wide distribution network along with our highly skilled staff, quality and specialized product range, are the keys to our success.

Inspired by Knowledge

Products & Services

Develop, manufacture and distribute high quality culture media for micro and molecular biology.

The experience acquired in the design and manufacture of culture media has matured us as specialists in the field of microbiology. We design and produce more than 700 dehydrated culture media. Condalab is also recognized for providing key ingredients such as agars, peptones and agaroses, among other products. Our catalog also includes media solutions for a wide range of molecular biology application.

Monlab is a company dedicated to manufacture, distribute and provide services to clinical diagnostic laboratories since 1985. Based in Barcelona, we work to provide the best solutions to the sector, constantly improving our attention and service. We try to adapt to the demands of each of our customers, with the aim of helping progress in clinical diagnosis and contribute to improving the quality of life of patients and people. Our wide range of products includes rapid tests, reagents, analyzers or infusion material among other diagnostic products and we are tenaciously looking to adapt to the circumstances of the moment through an efficient performance. The scope of action of the institution lies in clinical analysis laboratories, hospitals, health centers, related faculties, as well as clinical-scientific research centers.

Monlab offers products of proven quality at a competitive price

We are a spanish biotechnological company with more than 50 years experience in R&D and manufacturing of IVD products. Nowadays, we are exporting these products to more than 50 countries all over the world.

Diagnosing your needs

Products & Services

Our main product lines are:
immunochromatography – rapid test,
molecular diagnostics (Opegen and Real
Time products), raw materials (monoclonal
antibodies and recombinant antigens), and
customized product/services (our know-
how is available as a service).

Since 1980 RAL develops its activity in the IVD field both in human and veterinary diagnostics. "We manufacture and distribute analyzers for biochemistry, hematology and coagulation. In addition, we offer added value to our customers to allow them to give the best service to the end customer. Thanks to a wide catalogue of resources and services, RAL pushes for a custom service adapted to the size and needs of each clinic and laboratory. We advise each customer to get the best analyzers and reagents for their needs both scientifically and financially.

Think RAL, Think Smart

Products & Services

Human field: Biochemistry analyzers, semi-automatic coagulometers, electrophoresis systems and sedimentation rate analyzers. Vet field: biochemistry analyzer and hematology analyzer.

VITRO is a Spanish company with a growing global footprint, that operates in the in-vitro diagnostic segment and has three distinct business lines complying with the quality standards: Pathology, Molecular testing for Microbiology and Laboratory Informatic Systems.

Vitro develops, manufactures and distributes its own reagents, equipments and laboratory software.

It is one of the few players worldwide offering a holistic and cutting-edge IVD proprietary platform, with global footprint, present in over 60 countries across USA, Europe, Asia, Middle East and Latam, and a broad customer base of +2,000 clients.

Products & Services

Vitro provides automated IHC/ISH, ready-to-use antibodies, FISH probes, and CE-IVD kits for multiplex PCR and DNA flow, ensuring precise pathogen and marker detection.
